License.IQ
Lock Down Compliance.

[Take Control of Oracle Costs]

▶ Your IT & Governance Headaches

Managing Oracle creates hidden risks, compliance gaps, and operational inefficiencies, especially without the right tools in place.

◆▸ **Security Gaps:** Outdated, unauthorized Oracle installs create risk across your environment.

◆▸ **Manual Compliance Tracking:** Time-consuming, error-prone processes slow your teams down.

◆▸ **No License Control:** Without visibility, optimization is near-impossible and costs spiral.

▶ How Remapped Strengthens IT Governance

License.IQ from Remapped puts CIOs and CTOs in full control of Oracle licensing, compliance, and cost management.

◆▸ **Instant Risk Detection:** Surface unsupported, rogue, or non-compliant Oracle assets.

◆▸ **Automated License Governance:** Ensure only authorized & compliant software is deployed.

◆▸ **Audit Readiness & Compliance:** Maintain full, defensible records; no scrambling when Oracle knocks.

◆▸ **Pre & Post-Migration Clarity:** Identify unused licenses before and after IT transformations.

◆▸ **Less Admin, More Impact:** Eliminate spreadsheet overhead and free your IT team to focus on strategic work.

▶ What You Gain with Remapped

Automated, enterprise-wide Oracle license discovery that cuts costs, strengthens audit defense, and puts you back in control of vendor negotiations.

◆▸ **Improve IT security posture** by uncovering and eliminating unauthorized Oracle deployments.

◆▸ **Maintain full compliance** to minimize audit risk and avoid unplanned costs.

◆▸ **Boost IT efficiency** through automation, reducing manual workload.

Ready for a Compliance Check?
Get a free Oracle license risk assessment from Remapped, and know your exposure before Oracle tells you.
